

NOVEMBER 2010						
MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY	SUNDAY
1	2	3	4	5	6	7
Fold over the leaves of cauliflowers to protect the curds						
Cover bay trees with fleece if kept in an exposed spot.						
	Plant bare rooted fruit trees					
This is a good month to plant bare rooted hedging plants			Bring tender plants such as fuschias indoors		Lift and divide herbaceous perennials	
If you haven't done already, start feeding the birds to help them over winter						
8	9	10	11	12	13	14
You can start pulling early-sown parsnips around now but they can be left in the ground all winter and lifted as required						
Take hardwood cuttings of black currants						
Plant tulip bulbs		Trees and shrubs can be moved to new spots around now				
Clear crops and old bedding plants and add the debris to the compost bin. Mulch beds as soon as you have cleared them					Clear out bird boxes	
15	16	17	18	19	20	21
Plant garlic cloves - buy them from the garden centre rather than using old 'shop-bought' cloves						
	Take hardwood cuttings of deciduous shrubs and trees					
Mulch beds with seaweed and leave over winter						
22	23	24	25	26	27	28
Cover tender plants such as cordyline and bay with horticultural fleece						
29	30
